## ASSAULT UPON TAMPICO FAILS

Mexican Federals Force Insurgents to Withdraw.

### BUZZARDS FLOAT OVER FIELD

Great Clouds of Birds Indicate Heavy Slaughter—Rebels Remain Sufficiently Cool in Face of Furious Fire to Take Away With Them Every Locomotive and Most of the Rolling Stock.

Mexico City, Dec. 15.—The rebels have failed in their attack on Tampico and have withdrawn some distance from the city.

Unofficial messages reaching here fully corroborate the war office report of the rebel defeat as a result of a heavy and sustained bombardment by two federal gunboats and federal field artillery. They do not, however, bear out the idea of a rout.

In possession of the railroad yards throughout the battle the rebels, when they were driven off, remained sufficiently cool in the face of the furious fire to take away with them every locomotive and most of the rolling stock.

That the rebel loss was great is also emphasized in these advices, which add that the buzzards which inhabit the Mexican coast and which for generations have been protected by law floated over the battlefields in numbers so great as to present the appearance of low lying black clouds.

According to the federal report 800 rebels were killed before they could get out of range and this would mean many other hundreds wounded and probably left behind.

It is regarded here as probable the rebels will resume the attack in greater numbers.

### EXECUTES TWENTY CIVILIANS

Refugees From Chihuahua Tell of General Villa's Acts.

El Paso, Tex., Dec. 15.—Americans, Germans and Spaniards who arrived from Chihuahua, Mex., report that Francisco Villa, the rebel leader, virtually had constituted himself dictator there and that he refused to heed the requests of representatives of foreign governments.

They assert the rebel leader has seized \$5,000,000 worth of property belonging to foreigners, has put to death twenty Mexican civilians and has commanded the American, German and British consuls to obey rebel orders.

Villa called a meeting of merchants of all nationalities and told them they must pay him large sums of money, aggregating several million dollars, to support the revolution. He gave orders that the so called Constitutionalist money should be accepted as currency.

Villa's expulsion of citizens of Spain, all of whom were progressive merchants, was on pain of death.

### CHANCE FOR EVERY VOTER

Registered Citizens Will Be Permitted at Polls.

Santo Domingo, Dec. 15.—The general elections which will be held for the members of the chamber of deputies will be conducted in an orderly manner. The government promises that every voter shall have a free and fair opportunity to register his choice at the polls.

The municipal council has decided that only its members, representatives of the different parties and properly registered voters shall be permitted in the city hall on the polling days.

This measure excludes the general public and foreign visitors. Among the latter are the American commissioners who have been sent here to observe the elections and to act officially as umpires in case of disputes.

### FIGHTS DUEL WITH FRIEND

Chicago Man Mortally Wounds Opponent and Kills Himself.

Chicago, Dec. 15.—W. J. Millman hot and killed himself after he had fought a duel with knives with his friend, Arcadia Sokoloff. Sokoloff is in a hospital dying from the cuts. Millman accused his friend of trying to win Mrs. Millman's affections. "It's a lie," Sokoloff said. "I'm your friend."

"Well, you'll have to fight for her," returned Millman. Millman armed himself with a knife, handed Sokoloff one and then fought in the rear of the Millman home.

Millman entered the house after leaving his opponent unconscious and not himself.

### FORBIDS ALL IMMIGRATION

Canada Closes British Columbia Ports for Three Months.

London, Dec. 15.—A dispatch to the times from Tokio says the Japanese government has been notified that Canada intends to prohibit all immigration to British Columbia for three months. The correspondent adds that, as there will be no discrimination against Orientals, Japan cannot object.

## HOPE TO SECURE VOTE SATURDAY

Senate Leaders Expect Action on Currency Measure.

### MAY END DEBATE THURSDAY

Administration Men Plan Then to Have Balance of Time Taken Up Considering Amendments—Republican Critics of the Bill Probably Will Demand Several Alterations.

Washington, Dec. 15.—The long struggle over currency reform is expected to come to an end in the senate next Saturday. Administration leaders, who have been exerting every effort to enact into law before Jan. 1 the second great plank of the Democratic platform, are confident that an agreement could be reached that would permit final vote in the senate by 6 p. m. Saturday.

The Democrats are anxious to close general debate by Thursday and to devote the balance of the time to the consideration of amendments to the bill. If the final vote can be taken Saturday it is believed the differences between the senate and house can be adjusted and the bill sent to President Wilson for signature before Christmas.

Republican critics of the measure probably will demand some changes in it as a condition to giving their consent to a definite date for a vote. It is considered doubtful whether the guarantee of bank deposits, to which many Republicans object, can be taken out of the measure, but a strong effort will be made to eliminate that provision which authorizes the redemption of the proposed new treasury notes either in gold or lawful money.

The house has lost sight of the currency bill in the press of new legislation demanding consideration. Important changes in the railroad laws, a comprehensive study of the trust question and a reopening of the fight over a literacy test for immigration are dividing attention in that body, with the new economy program that was launched by the "economy conference" of house leaders.

### KILLED IN TWENTY-YEAR DUEL

Brother of Victim Takes Oath to Stay Murderers.

Chicago, Dec. 15.—Another victim was claimed on the South Side in a vendetta which had its beginning in a village in Sicily twenty years ago.

Mike Laporta was called to the door of his home by cries of "Hurry, your brother is dying." A moment later he was struggling with three men who left him dead with twenty knife wounds in his body.

Antonio Laporta, the brother, came home soon after the police arrived. He asserted he knew who killed Mike. When questioned about the identity of the assassins he would only shake his head and reply:

"It is my affair; I will find them."

Then he took an oath to kill the three murderers if it takes him a lifetime.

### SEVEN HURT IN AUTO CRASH

One Man May Die From Injuries Received in Collision.

Superior, Wis., Dec. 15.—Seven persons were injured, one of them, Emil Hendricks, perhaps fatally, here when the auto in which Hendricks was riding, collided head-on with a car occupied by Professor A. D. Wheadon of the Superior normal and family. The occupants of the Wheadon car, including an infant, escaped with slight injuries, although the machine was damaged extensively. The other, which was attempting to pass a third car at the time of the collision, was demolished.

### CAR TUMBLES DOWN BLUFF

Fifteen Persons Injured When Mortician Loses Control.

Connelville, Pa., Dec. 15.—Fifteen persons were injured, six seriously when a trolley car on the West Pennsylvania Railway company's line got beyond control, plunged through a bumping block at the end of the line and rolled twenty feet down a sixty-foot embankment.

The fall of the car down the embankment was halted by a concrete railroad viaduct.

### PLANS FLIGHT OVER ANDES

Aviator Will Attempt Crossing at Altitude of 20,000 Feet.

London, Dec. 15.—A dispatch to the times from Tokio says the Japanese government has been notified that Canada intends to prohibit all immigration to British Columbia for three months. The correspondent adds that, as there will be no discrimination against Orientals, Japan cannot object.

**KING CONSTANTINE.**  
Grecian Monarch Formally Annexes Island of Crete.

## SOCIAL STANDING CAUSES TROUBLE

Congressmen and Wives Demand Proper Recognition.

### EUROPEAN CUSTOM IN VOGUE

To the Outsider Whole Fuss Seems Out of Place in Latter Day Jeffersonianism—Jim Ham Lewis a Great Defender of His Faith—Sisson Explains Why Expenditures Increase.

By ARTHUR W. DUNN.

Washington, Dec. 15.—[Special.]—Prating of precedence sounds rather out of place in a democracy, particularly when the real democracy is in charge of every branch of the government. The senate has practically gone on a strike against social functions where senators are not given precedence over cabinet officers and ambassadors, as well as other functionaries.

The women of congress, wives of members of the house, went on a strike until assured that calls they made on the wives of cabinet officers would be returned. Wives of senators refuse to make first calls on wives of cabinet officers because the senators claim precedence over cabinet officers.

The island of Crete finally was evacuated on Feb. 15 last by the protecting powers, Great Britain, Russia, France and Italy, and the Greek flag was hoisted. A detachment of blue-jackets and marines from the British cruiser Yarmouth hauled down the flags of the powers which had flown since 1898, as well as that of Turkey, with full military honors.

### Borrowed From Europe.

Most of this stuff is borrowed from Europe. Let a man in the diplomatic corps get out of his proper place in the matter of "precedence" and he is hustled back mighty quick. All dinner entertainers are scrupulously careful to see that foreigners are given places according to their rank. But it is much harder in regard to senators. And foreign ambassadors would not like to be "placed below" senators and members of the house. Yet the representatives have the same claim to precedence as given senators because they compose a co-ordinate branch of the national legislature. But the whole fuss seems out of place in this latter day Jeffersonianism.

### Defender of the Faith."

James Hamilton Lewis should be given the title of "defender of the faith," for he certainly beats every other senator to it in standing up for the actions of the administration and "hurling back defiance" to those Republicans who criticize the administration's interference with congress. And no man is so big that this "Jack the Giant Killer" is afraid of him. Elihu Root, Senator Cummings, Burton of Ohio, Reed Smoot and, in fact, any or all of the Republican leaders are met by the flow of oratorical acrobatics from Jim Ham Lewis whenever he criticizes the policies and actions of the administration.

### "On the Other Foot."

All the old adages fit situations in the United States senate. "Chickens come home to roost" in the case of Senator Owen not long ago. He was berating the Republicans for delaying and talking long on the currency bill, which he was trying to have passed, and became involved in a controversy with Senator Gallinger.

"I remember," said the New Hampshire senator, "a prolonged and uninteresting speech that the senator from Oklahoma made not long ago occupying six hours and by filibustering defeating the will of the senate."

But that was in another session, on another bill and under different circumstances.

### Brandegee Wouldn't Scare.

The opponents of the Hatch-Hatchett bill sent tons of literature, letters and postal cards to everybody in Washington calling on them to "stop this grab," to "prevent this steal," to "defeat the grafters." These and similar terms were applied to those who were in favor of the bill. Senator Brandegee of Connecticut took up the matter and said that a senator would be a contemptible person if he became scared by such demonstrations when two committees of congress had reported the bill favorably and no evidence was offered that "crooks," "grafters" or the like were really concerned in securing its passage.

### Why Expenditures Grow.

Congressman Sisson of Mississippi, like most members of the appropriations committee, has the habit of preaching economy unless like all other members of that committee, the passing process does not come too close home. In explaining how expenditures grew Sisson said to the house:

"I never saw a man in this house who was the advocate of a certain great expenditure who was not willing to vote for the extravagances advocated by other fellows." He went on to explain that it had become part of the business of members to get all they could in the way of federal money in order to make their campaigns for return to congress.

### Had His Say.

Congressman Fowler talked on a resolution for adjournment the other day, but he really talked about trusts and the methods they took in regard to recent tariff duties. Fowler says it is evident that certain combinations had produced such a result in order to make the tariff unpopular.

### Practical.

"Do you believe in love at sight?" "Yes; if you can build on the site."—Baltimore American.

**CHARLES D. HILLES.**

Will Preside at Meeting of Republican National Committee.

## COMMITTEE MAY DECIDE ON CALL

Republicans Will Meet in Washington Tuesday.

### OPENLY FAVOR CONVENTION

Several National Committee Delegates Favor Special Meeting, Some Are Opposed and Others Declare They Are of Open Mind Regarding the Proposition.

Washington, Dec. 15.—Leading members of the Republican national committee here to attend the committee meeting Tuesday expressed belief that a special convention of the Republican party will be called to reorganize its methods, change the basis of delegate apportionment and to consider the preparation of a new party platform that would unite its broken ranks.

Among nearly a dozen committee men who had arrived several were of "open mind" as to the convention plan and one or two were outspoken against it. Several conferences had, however, and the statements of committee members who have been in communication with a majority of that body indicated that plans have been made tentatively looking toward the calling of the convention and the advocates of the plan believe they have a majority of the committee behind them.

The plan now in contemplation, if the committee decides to summon a convention, is to provide in the call that the various state committees shall control the method of selecting delegates, except where there are state primary laws covering the subject.

### Want Primary Laws Final.

This plan, if adopted, would be the first step toward one of the changes in rules demanded by the so called progressive faction of the party, that the "district unit" system of selecting delegates be abandoned and the primary laws of various states be recognized as final by the national committee.

While the formal committee meeting does not begin until Tuesday morning the fight over the convention will be inaugurated tonight at a dinner to be given to the committee by Chairman Charles D. Hilles. This dinner will be participated in only by members of the committee and it is expected that the real issue of the convention will be settled before its conclusion. The committee session of Tuesday probably will be held with open doors.

The prospect of a fight in a convention for the adoption of a platform of party principles has been an important factor in strengthening the opposition of some committee men who do not favor the project. Senator Cummins, former Governor Hadley of Missouri and other leaders of the Progressive Republican forces have laid plans for a campaign to secure the adoption of a platform of marked progressive character.

### GRAIN AND PROVISION PRICES

#### Duluth Wheat and Flax.

Duluth, Dec. 15.—Wheat—On track and to arrive, No. 1 hard, \$74c; No. 1 Northern, \$64c; No. 2 Northern, \$44c @ \$44c. Flax—On track and to arrive, \$1.46c.

#### South St. Paul Live Stock.

South St. Paul, Dec. 15.—Cattle—Steers, \$5.50 @ \$7.75; cows and heifers, \$5.00 @ \$6.00; calves, \$4.50 @ \$5.90; feeders, \$4.30 @ \$7.00. Hogs—\$7.50 @ \$7.65. Sheep—Lambs, \$5.50 @ \$7.25; wethers, \$3.75 @ \$4.50; ewes, \$2.50 @ \$4.35.

#### St. Paul Hay.

St. Paul, Dec. 15.—Hay—Choke timothy, \$17.50; No. 1 timothy, \$16.00 @ 16.75; No. 1 clover mixed, \$11.00 @ 11.75; No. 1 mixed, \$12.00 @ \$12.75; choice upland, \$14.50; No. 1 upland, \$13.00 @ \$13.75; No. 1 midland, \$7.50 @ \$8.25; No. 1 alfalfa, \$15.00 @ \$15.75.

#### Chicago Grain and Provisions.

Chicago, Dec. 15.—Wheat—Dec., \$84c; May, 92c; July, 87c; Corn, 69c @ 69c; May, 69c @ 69c; July, 68c. Oats—Dec., 39c; May, 41c @ 41c; July, 41c. Pork—Jan., \$20.90; May, \$20.95. Butter—Creameries, 31c. Eggs—28 @ 31c. Poultry—Springs, 12c; hens, 12½c; turkeys, 16c.

#### Chicago Live Stock.

Chicago, Dec. 15.—Cattle—Beefes, \$6.60 @ \$6.60; Steers, \$5.90 @ \$7.75; stockers and feeders, \$4.90 @ \$7.50; calves and heifers, \$3.40 @ \$3.30; calves, \$2.50 @ \$2.50; Hogs—Light, \$7.40 @ \$7.50; mixed, \$7.50 @ \$7.85; heavy, \$7.50 @ 7.90; rough, \$7.50 @ \$7.60; pigs, \$6.00 @ \$6.75. Sheep—Native, \$4.25 @

Senator Cummins, former Governor Hadley of Missouri and other leaders of the Progressive Republican forces have laid plans for a campaign to secure the adoption of a platform of marked progressive character.

### NO CHOCOLATE FOR ARMY

Emergency Diet Abandoned Because It is Defective.

Washington, Dec. 15.—Chocolate rations, long the mainstay of the army as an emergency diet, have been tabooed and Secretary Garrison has ordered that no more supplies of this food compound be issued to troops.

While its nutritive value is pronounced good Dr. C. F. Longworth of the agricultural department has reported that it is "defective as to digestibility and therefore deleterious to the health of its consumers."

### ARBITRATION IS REJECTED

Latest Proposition of Michigan Copper Strikers Turned Down.

Lansing, Mich., Dec. 15.—According to advices received at the governor's office the latest attempt of President Moyer of the Western Federation of Miners to have the copper strike settled by arbitration has failed.

Moyer telegraphed Governor Ferris that his proposition to have the men go back to work at once, providing an arbitration board was agreed upon, was turned down by the employers.

### 449 DIE IN MINE ACCIDENTS

Fatalities During October Higher Than Year Ago.

Washington, Dec. 15.—Coal mine accidents in the United States in October resulted in the death of 449 men, according to reports from state mine inspectors to the United States Bureau of Mines. This is a large increase over October, 1912, when the fatalities were 203, but this year there was one explosion at Dawson, N. M., that resulted fatally to 263 miners.

Fog Causes Collision.

Fresno, Cal., Dec. 15.—Eight passengers and four trainmen were injured, one of the latter perhaps fatally, when the Santa Fe limited crashed into the rear end of another passenger train at Storey, twenty miles north of here. Fog is said to have been the cause of the collision.

MONDAY, DECEMBER 15, 1913.

### THE WEATHER

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Mampel.

December 13, maximum 49, minimum 20.

December 14, maximum 41, minimum 21.

"Eggs are almost a political issue in some of the large cities," says the Superior Telegram. Must be a rotten condition of affairs.

P. M. Ringdahl has been made register of the Crookston land office, and while not as good a position as governor of the state of Minnesota it helps some.

Duluth expects to become the Greta Green for many Wisconsin couples who would avoid the delay necessary occasioned by the medical examination necessary under the "eugenic marriage law" which becomes effective January 1st in that state.

The expansion of the parcel post business so that a 49-pound sack of flour can be sent by mail after the first of January seems to have gotten a hump on the express companies, judging from the published reports of a contemplated cut in two of their rates.

The state fire marshal has sent out the usual timely warning regarding the carelessness at Christmas time which brings grave fire hazards owing to the flimsy materials used in store decorations and the unnecessary chances taken at Christmas trees in public places where school houses and churches are crowded and the means of exit afford little chance for escape in a panic. Extra precaution should be used at this season of the year.

Congressman Steenerson is in the lime light just now as the sponsor for a bill to prohibit the circulation through the mails of newspapers and magazines carrying illustrated tobacco and whiskey advertisements. The congressman's contention is that boys and girls seeing the pictures accompanying the advertisements will believe that they must drink that par-

ticular brand of liquor to insure their living. Many publications throughout the country have already tabooed these advertisements whether illustrated or not.

If you lived at Hibbing and was a municipal employee your job would be in danger if you continued to trade with catalogue houses. The city council has taken the matter up and the mayor of that city says "there is no excuse for the employees to trade with out of town catalogue houses since they are paid their salaries by persons who live here." The action of the council is a "patronize-home-industry" movement intended to benefit the city. At the same meeting of the council the purchase of a baby incubator was authorized to be installed in the basement of the city hall.

H. A. Rider has been reappointed by the governor as a member of the state game and fish commission for four years, which means that he will be retained as the executive agent of that body which carries with it a salary of \$2,500. It has been generally circulated throughout the state that a shake-up was due on the commission, that G. J. Bradley was to succeed Rider and that the latter gentleman was to be given the superintendency of fisheries now held by E. W. Cobb, but the events of the past few days would indicate that the reports were untrue. Mr. Rider was a former member of the legislature from this district and a resident of Little Falls.

Many cities in the country are facing an ice famine and in fact in several places in the northwest the harvest of last year has been entirely consumed and people are being supplied from near by towns or are doing the best they can without it. Little Falls has a two weeks supply yet and hopes that by the time it is gone the river will freeze sufficiently so that enough may be obtained for cooling purposes. Brainerd is more fortunate than many places as unless an unusual condition prevails the entire supply will not be exhausted although the ice is now being delivered to customers is the bottom of the houses and much of it is ice that has been packed for four or five years as it is seldom that an ice house is entirely cleaned out, as the cautious ice dealer usually puts in many more tons of ice than his trade will consume in order to be prepared for just such a season as the one we are now enjoying. The ice crop, like all other crops in Northern Minnesota, is very seldom a failure and it is hoped and expected that the right kind of weather will be enjoyed along in January to insure the people of this section with sufficient ice for cooling purposes during the coming summer.

## CHRISTMAS PROTECTION

Christmas Rush Means Christmas  
Crush and the Public Should  
Take Timely Warning

## MAIL YOUR PACKAGES EARLY

Postoffice is Prepared to Handle the  
Immense Volume of Extra Business  
Now in Sight

The force at the local postoffice has been preparing for some days for the extra volume of mail already commencing to move incident to the holiday season. With parcel post shipments added to the accumulation of mail alway received at this time of the year the quantity of matter which will crowd the floors and all available space is expected to be larger than ever, and a thoughtless public is asked to mail early, wrap securely and address plainly all parcels at this season of the year.

In order that the public may understand the insurance feature of the parcel post the Dispatch is furnished the following regarding the matter:

"There is much misunderstanding among people generally regarding the insurance of parcel post articles. Packages under this classification cannot be registered, but they may be insured, the charge being 5 cents on a valuation of \$25 and 10 cents from \$25 to \$50. Special tags are procured for the purpose, these tags having three sections, one to be placed on the parcel, one to be kept by the postoffice and the third going to the sender as a receipt.

The public can cooperate with the postoffice in handling the huge Christmas mail if they take the matter seriously and give time to the thought that nearly every one within mailing distance of the postoffice in the city of Brainerd will be sending from one to a dozen packages by mail to friends in other parts of the country. During the last few days a mad rush will be made to get these packages dispatched and crowds will be lined up in front of the windows at the postoffice waiting for their turn and for the overworked clerks to look up the zone, rate and other data incident to getting their Christmas greeting started on its way to Maine, California or Florida as the case may be. A majority of these packages must be insured also, as it adds to the safety of carriage and makes it possible to trace a lost or misplaced parcel, so vexatious at Christmas time.

The public should remember that on all insured packages a value must be placed and in sending the same to the postoffice for mailing by children or others unfamiliar with the contents the value should be marked on the package or given to the party who is to have the insuring done in order not to delay the work of the clerks at the window.

Any first class matter can be registered, and by first class matter is meant packages sealed from inspection and on which the first class rate of postage, two cents an ounce, must be paid. Parcel post matter can be insured, but not registered.

Advice on the packing of parcels for the postoffice as given out today follows:

Umbrellas, canes, golf sticks, fishing rods and similar articles should be fastened between boards slightly longer and wider than the articles enclosed. Hats in pasteboard boxes should be crated with wood unless packed in double corrugated pasteboard boxes, and must not exceed 1tp.

Young Women: Number Surprising

The number of young women who suffer with weak back, dizzy and nervous spells, dull headache and weariness is surprising. Kidney and bladder ills cause these troubles, but if Foley Kidney Pills are taken as directed relief follows promptly and the ills disappear. Contain no habit forming drugs. H. P. Dunn.—Advt.

The Adams mine at Oreland is continuing its drifting operations and will soon be in shape to hoist ore and commence stock piling.

The Cuyuna-Sultana Iron Co. has a drill at work in section 16, township 46, range 28, being the northeast quarter of the northeast quarter of the section.

The Adbar Development Co., in which Cuyler Adams and associates are interested, has a drill at work at Philbrook.

The Rowe mine at Riverton is profiting by the mild weather and is enabled to continue operation of its hydraulic plant. In addition to this they are working their steam shovel and two engines and trains of dump cars. Over 100 men are employed. Forty men are working on twenty cottages which have been almost completed. The Soo's two-stall round house has been finished. On December 24 an election will be held to vote on incorporation. Under Capt. Barr's management the Rowe mine is being gotten into shape for big shipments next year, some asserting that this one mine will ship as much ore as the whole Cuyuna iron range did in 1913.

At the Inland Steel Co. Thompson mine the property is being rapidly converted into a pit mine, the work being under the supervision of Capt. Wearne. The Thompson mine is one of the richest on the range. Striping commenced last spring and it will be in shape to ship next season. The steam shovel is reported to be within six feet of ore in places. Thos. Keating, of Deerwood and his old chum, Morris J. Haley, are interested in the fee of the mine. At Superior, Wis., Attorney John Brennan has sued Keating for \$25,000 alleging that amount was due him for advice and legal services. Mr. Keating is vigorously contesting the claim. The Thompson mine is expected to ship several hundred thousand tons of ore in 1914.

At the Barrows mine of the Virginia Ore Mining Co. at Barrows their five-compartment shaft is now down about 60 feet. They are drifting from the No. 2 shaft towards the new shaft so as to afford drainage and make the sinking of the new shaft much easier.

At the Brainerd-Cuyuna Mining Co. mine in the city limits of Brainerd a force of twenty men is at work. All the machinery has been installed

and the steam plant is in operation. Capt. John Martin, of Duluth, first started work three months ago and in that time the shaft was sunk 50 feet and all the buildings erected and machinery and boiler plant installed. He expects to go the balance of the distance, 47 feet through hard pan, in two weeks. Working three shifts a day he expects to sink four feet a day.

The city of Brainerd is asking for bids to develop on a royalty basis the mineral lands within the city limits bequeathed to it by the late Judge G. W. Holland. Bids will be received by the city clerk up to and including January 5, at 8 o'clock in the evening.

The Kennedy Mine at Cuyuna has completed installation of Electrical Equipment

H. COLE ESTEPS VISITS RANGE

Associate Editor of "Iron Trade Review" to Write up the Cuyuna Iron Range

The Kennedy mine of the Rogers, Brown Ore Co. at Cuyuna has finished the installation of its electrical equipment. They generate their own power. A 5-ton Goodman electric locomotive is used underground and hauls a string of ten 3-ton cars from the workings to the shaft where the ore is dumped into pockets and these in turn empty into the skips and are hoisted to the surface. On the surface the ore is hauled by a 3-ton General Electric locomotive, a 3-ton cars being used. Where formerly 20 trammers and others were used, the work is now done as satisfactorily by only six men. The payday at the Kennedy on December 15th will distribute about \$16,000, the same amount as the Armour No. 2 mine at Crosby.

By taking advantage of the season before the rush commences you will not only escape the crowding, jostling wrong but your package will be on its way before the express and mail cars are crowded to the roofs and tired mail clerks wish Christmas had never been heard of in their endeavor to get the mass of stuff started in the right direction.

Some data has been gathered as to the proper time for mailing in order to insure prompt delivery and is may be an aid to some who are in doubt and who still wish to start their presents in plenty of time:

December 18—San Francisco and Seattle and other Pacific and far western points.

December 20—Boston, Buffalo, Atlanta, Ga., Charlestown, S. C., Jacksonville, Fla., Nashville, Cincinnati, Cleveland, Indianapolis, New Orleans, St. Louis and Savannah, Ga.

December 21—New York, Philadelphia, Baltimore, Richmond, V. Lynchburg, Va., Norfolk, Va., Cumberland, Md., and Pittsburgh.

December 23—Local Delivery.

An earlier date of mailing to these points is advised but by no means should the date be delayed beyond the time mentioned above, and parties having mailing to do to other places than those named can be governed by a comparison of distances.

Card of Thanks

We wish to thank our friends and neighbors, the members of St. Francis Catholic church, the Ladies Auxiliary of the A. O. H. and the Ladies Catholic Order of Foresters for their kindness and sympathy and floral emblems upon the death of my wife, Mrs. A. M. Wallace.

The Adams mine at Oreland is continuing its drifting operations and will soon be in shape to hoist ore and commence stock piling.

The Cuyuna-Sultana Iron Co. has a drill at work in section 16, township 46, range 28, being the northeast quarter of the northeast quarter of the section.

The Adbar Development Co., in which Cuyler Adams and associates are interested, has a drill at work at Philbrook.

The Rowe mine at Riverton is profiting by the mild weather and is enabled to continue operation of its hydraulic plant. In addition to this they are working their steam shovel and two engines and trains of dump cars. Over 100 men are employed. Forty men are working on twenty cottages which have been almost completed. The Soo's two-stall round house has been finished. On December 24 an election will be held to vote on incorporation. Under Capt. Barr's management the Rowe mine is being gotten into shape for big shipments next year, some asserting that this one mine will ship as much ore as the whole Cuyuna iron range did in 1913.

At the Inland Steel Co. Thompson mine the property is being rapidly converted into a pit mine, the work being under the supervision of Capt. Wearne. The Thompson mine is one of the richest on the range. Striping commenced last spring and it will be in shape to ship next season. The steam shovel is reported to be within six feet of ore in places. Thos. Keating, of Deerwood and his old chum, Morris J. Haley, are interested in the fee of the mine. At Superior, Wis., Attorney John Brennan has sued Keating for \$25,000 alleging that amount was due him for advice and legal services. Mr. Keating is vigorously contesting the claim. The Thompson mine is expected to ship several hundred thousand tons of ore in 1914.

At the Barrows mine of the Virginia Ore Mining Co. at Barrows their five-compartment shaft is now down about 60 feet. They are drifting from the No. 2 shaft towards the new shaft so as to afford drainage and make the sinking of the new shaft much easier.

At the Brainerd-Cuyuna Mining Co. mine in the city limits of Brainerd a force of twenty men is at work. All the machinery has been installed

and the steam plant is in operation. Capt. John Martin, of Duluth, first started work three months ago and in that time the shaft was sunk 50 feet and all the buildings erected and machinery and boiler plant installed. He expects to go the balance of the distance, 47 feet through hard pan, in two weeks. Working three shifts a day he expects to sink four feet a day.

The city of Brainerd is asking for bids to develop on a royalty basis the mineral lands within the city limits bequeathed to it by the late Judge G. W. Holland. Bids will be received by the city clerk up to and including January 5, at 8 o'clock in the evening.

The Kennedy Mine at Cuyuna has completed installation of Electrical Equipment

H. COLE ESTEPS VISITS RANGE

Associate Editor of "Iron Trade Review" to Write up the Cuyuna Iron Range

The Kennedy mine of the Rogers, Brown Ore Co. at Cuyuna has finished the installation of its electrical equipment. They generate their own power. A 5-ton Goodman electric locomotive is used underground and hauls a string of ten 3-ton cars from the workings to the shaft where the ore is dumped into pockets and these in turn empty into the skips and are hoisted to the surface. On the surface the ore is hauled by a 3-ton General Electric locomotive, a 3-ton cars being used. Where formerly 20 trammers and others were used, the work is now done as satisfactorily by only six men. The payday at the Kennedy on December 15th will distribute about \$16,000, the same amount as the Armour No. 2 mine at Crosby.

By taking advantage of the season before the rush commences you will not only escape the crowding, jostling wrong but your package will be on its way before the express and mail cars are crowded to the roofs and tired mail clerks wish Christmas had never been heard of in their endeavor to get the mass of stuff started in the right direction.

Some data has been gathered as to the proper time for mailing in order to insure prompt delivery and is may be an aid to some who are in doubt and who still wish to start their presents in plenty of time:

December 18—San Francisco and Seattle and other Pacific and far western points.

December 20—Boston, Buffalo, Atlanta, Ga., Charlestown, S. C., Jacksonville, Fla., Nashville, Cincinnati, Cleveland, Indianapolis, New Orleans, St. Louis and Savannah, Ga.

December 21—New York, Philadelphia, Baltimore, Richmond, V. Lynchburg, Va., Norfolk, Va., Cumberland, Md., and Pittsburgh.

December 23—Local Delivery.

An earlier date of mailing to these points is advised but by no means should the date be delayed beyond the time mentioned above, and parties having mailing to do to other places than those named can be governed by a comparison of distances.

Card of Thanks

We wish to thank our friends and neighbors, the members of St. Francis Catholic church, the Ladies Auxiliary of the A. O. H. and the Ladies Catholic Order of Foresters for their kindness and sympathy and floral emblems upon the death of my wife, Mrs. A. M. Wallace.

A. M. Wallace and Family

Advt—1 Mr. and Mrs. Wm. Hogan.

Card of Thanks

We wish to thank the Brotherhood of American Yeomen, Home-stead No. 1601, our friends and neighbors of Brainerd for the kindness and sympathy shown at the passing away of our mother.

## CHRISTMAS PROTECTION

Christmas Rush Means Christmas  
Crush and the Public Should  
Take Timely Warning

### MAIL YOUR PACKAGES EARLY

Postoffice is Prepared to Handle the  
Immense Volume of Extra Business  
Now in Sight

The force at the local postoffice has been preparing for some days for the extra volume of mail already commencing to move incident to the holiday season. With parcel post shipments added to the accumulation of mail already received at this time of the year the quantity of matter which will crowd the floors and all available space is expected to be larger than ever, and a thoughtless public is asked to mail early, wrap securely and address plainly all parcels at this season of the year.

In order that the public may understand the insurance feature of the parcel post the Dispatch is furnished the following regarding the matter:

"There is much misunderstanding among people generally regarding the insurance of parcel post articles. Packages under this classification cannot be registered, but they may be insured, the charge being 5 cents on a valuation of \$25 and 10 cents from \$25 to \$50. Special tags are procured for the purpose, these tags having three sections, one to be placed on the parcel, one to be kept by the post-office and the third going to the sender as a receipt."

The public can cooperate with the postoffice in handling the huge Christmas mail if they take the matter seriously and give time to the thought that nearly every one within mailing distance of the postoffice in the city of Brainerd will be sending from one to a dozen packages by mail to friends in other parts of the country. During the last few days a mad rush will be made to get these packages dispatched and crowds will be lined up in front of the windows at the postoffice waiting for their turn and for the overworked clerks to look up the zone, rate and other data incident to getting their Christmas greeting started on its way to Maine, California or Florida as the case may be. A majority of these packages must be insured also, as it adds to the safety of carriage and makes it possible to trace a lost or misplaced parcel, so vexatious at Christmas time.

The public should remember that on all insured packages a value must be placed and in sending the same to the postoffice for mailing by children or others unfamiliar with the contents the value should be marked on the package or given to the party who is to have the insuring done in order not to delay the work of the clerks at the window.

Any first class matter can be registered, and by first class matter is meant packages sealed from inspection and on which the first class rate of postage, two cents an ounce, must be paid. Parcel post matter can be insured, but not registered.

Advice on the packing of parcels for the postoffice as given out today follows:

Umbrellas, canes, golf sticks, fishing rods and similar articles should be fastened between boards slightly longer and wider than the articles enclosed. Hats in pasteboard boxes should be crated with wood unless packed in double corrugated pasteboard boxes, and must not exceed

seventy-two inches in length and girth combined. Cut flowers should be placed in boxes of wood, tin or heavy corrugated pasteboard. Candies in thin pasteboard boxes should be included in outer boxes of wood, tin or corrugated pasteboard.

Drawings or paintings when not flat should be rolled around a stout wooden stick and then carefully wrapped or included in a pasteboard tube.

Sharp instruments or other articles with sharp corners or edges should have the points or edges well protected, so as to prevent damage to other mail matter or injury to employees.

Articles of glass, crockery, Christmas toys easily breakable, glass framed pictures, etc., should be carefully packed in boxes of metal, wood, leather or corrugated pasteboard with sufficient excelsior, raw cotton, or similar matter to prevent contents from coming in contact with any portion of the box. Such parcels should be marked "Fragile."

By taking advantage of the season before the rush commences you will not only escape the crowding, jostling wrong but your package will be on its way before the express and mail cars are crowded to the roofs and tired mail clerks wish Christmas had never been heard of in their endeavor to get the mass of stuff started in the right direction.

Some data has been gathered as to the proper time for mailing in order to insure prompt delivery and may be an aid to some who are in doubt and who still wish to start their presents in plenty of time:

December 18—San Francisco and Seattle and other Pacific and far western points.

December 20—Boston, Buffalo, Atlanta, Ga., Charleston, S. C., Jacksonville, Fla., Nashville, Cincinnati, Cleveland, Indianapolis, New Orleans, St. Louis and Savannah, Ga.

December 21—New York, Philadelphia, Baltimore, Richmond, V. Lynchburg, Va., Norfolk, Va., Cumberland, Md., and Pittsburgh.

December 23—Local Delivery.

An earlier date of mailing to these points is advised but by no means should the date be delayed beyond the time mentioned above, and parties having mailing to do to other places than those named can be governed by a comparison of distances.

## DEVELOPMENTS OF WEEK ON RANGE

The Kennedy Mine at Cuyuna has completed installation of Electrical Equipment

### H. COLE ESTEPS VISITS RANGE

Associate Editor of "Iron Trade Review" to Write up the Cuyuna Iron Range

The Kennedy mine of the Rogers, Brown Ore Co. at Cuyuna has finished the installation of its electrical equipment. They generate their own power. A 5-ton Goodman electric locomotive is used underground and hauls a string of ten 3-ton cars from the workings to the shaft where the ore is dumped into pockets and these in turn empty into the skips and are hoisted to the surface. On the surface the ore is hauled by a 3-ton General Electric locomotive, 3-ton cars being used. Where formerly 20 trammers and others were used, the work is now done as satisfactorily by only six men. The payday at the Kennedy on December 15th will distribute about \$16,000, the same amount as the Armour No. 2 mine at Crosby.

Chester Tripp, of Chicago, prominently identified with the Rogers, Brown Ore Co., leaves December 13th with Mrs. Tripp for a short tour of Europe.

H. J. Kruse, superintendent of the Rogers, Brown Ore Co., says contracts have not yet been made so that he was in position to state what the estimated tonnage for 1914 will be.

The Dell Development Co. has released the options it held on the northwest quarter of the northeast quarter, the northeast quarter of the northwest quarter, the northwest quarter of the northwest quarter and the southeast quarter of the northwest quarter of section 34, township 47, range 29, the grantors being C. J. O'Connell and wife, Mary J. O'Connell, Franklin W. Merritt and Frederick W. Paine.

B. B. Gaylord is drilling for the Mesaba-Cuyuna Iron Co. in section 26, township 47, range 29. Ernest LeDuc, interested in the company, was on the range Wednesday and in company with B. B. Gaylord examined the property. Drilling is being carried on in the 139th hole which is now 140 feet deep, the ore being struck from 94 feet down.

The Cuyuna Iron & Manganese Ore Co. intends to convert into a pit mine its holdings in the northwest quarter of the northeast quarter and the northeast quarter of the northwest quarter of section 10, township 46, range 29. Two drills of the Helmer Exploration Co. have explored the ground in a thorough manner. The drill work has been under the supervision of F. Dahlberg, the latter making his headquarters at Ironton. To date 41 holes have been put down and they are all in ore. The samples assayed showed up well in iron and manganese. The surface is from 45 to 60 feet, the ground being more shallow than that of the Pennington pit mine near by, which the operators cannot wait until lake shipments are in order.

Shaft work is proceeding at a commendable rate at the Duluth-Brainerd mine in section 32, township 47, range 29. This mine will be a shipper next year.

The Cuyuna-Duluth mine has over 2,000 feet of underground workings. John H. Hill states that the mine will be in shape to ship from 150,000 tons to 200,000 tons in 1914.

The Adams mine at Oreland is continuing its drifting operations and will soon be in shape to hoist ore and commence stock piling.

The Cuyuna-Sultana Iron Co. has a drill at work in section 16, township 46, range 28, being the northeast quarter of the northeast quarter of the section.

The Adbar Development Co., in which Cuylor Adams and associates are interested, has a drill at work at Philbrook.

The Rowe mine at Riverton is profiting by the mild weather and is enabled to continue operation of its hydraulic plant. In addition to this they are working their steam shovel and two engines and trains of dump cars. Over 100 men are employed. Forty men are working on twenty cottages which have been almost completed. The Soo's two-stall round house has been finished. On December 24 an election will be held to vote on incorporation. Under Capt. Barr's management the Rowe mine is being gotten into shape for big shipments next year, some asserting that this one mine will ship as much ore as the whole Cuyuna iron range did in 1913.

At the Inland Steel Co. Thompson mine the property is being rapidly converted into a pit mine, the work being under the supervision of Capt. Wearne. The Thompson mine is one of the richest on the range.

Stripping commenced last spring and it will be in shape to ship next season.

The steam shovel is reported to be within six feet of ore in places.

Thos. Keating, of Deerwood and his old chum, Morris J. Haley, are interested in the fee of the mine.

At Superior, Wis., Attorney John Brennan has sued Keating for \$25,000 alleging that amount was due him for advice and legal services. Mr. Keating is vigorously contesting the claim.

The Thompson mine is expected to ship several hundred thousand tons of ore in 1914.

At the Barrows mine of the Virginia Ore Mining Co. at Barrows their five-compartment shaft is now down about 60 feet. They are drifting from the No. 2 shaft towards the new shaft so as to afford drainage and make the sinking of the new shaft much easier.

At the Brainerd-Cuyuna Mining Co. mine in the city limits of Brainerd a force of twenty men is at work.

All the machinery has been installed

and the steam plant is in operation. Capt. John Martin, of Duluth, first started work three months ago and in that time the shaft was sunk 50 feet and all the buildings erected and machinery and boiler plant installed. He expects to go the balance of the distance, 47 feet through hard pan, in two weeks. Working three shifts a day he expects to sink four feet a day.

The city of Brainerd is asking for bids to develop on a royalty basis the mineral lands within the city limits bequeathed to it by the late Judge G. W. Holland. Bids will be received by the city clerk up to and including January 5, at 8 o'clock in the evening.

A group of fee owners including P. B. Nettleton, Erick Kronberg, Geo. H. Gardner, Messrs. Westerberg, Levan, Purdy, Crust and Danielson also intend to develop their holdings in the 35 acres embraced in the northwest quarter of the northwest quarter of section 20, township 45, range 30. This tract corners on the northeast of the 80 acres Holland tract, one of the properties which the city will develop.

The county commissioners have also asked for bids to develop on a royalty basis the poor farm and the Brainerd Commercial club is anxious to have the leasing given only to operators who intend to push development work and not hold the property for speculation.

The Lenox Mining Co. has a drill near Fort Ripley, B. B. Gaylord doing the drilling. Interested in the company are J. J. Robinson and Joseph Weinberg, of Duluth.

The Dell Development Co. has released the options it held on the northwest quarter of the northeast quarter, the northeast quarter of the northwest quarter, the northwest quarter of the northwest quarter and the southeast quarter of the northwest quarter of section 34, township 47, range 29, the grantors being C. J. O'Connell and wife, Mary J. O'Connell, Franklin W. Merritt and Frederick W. Paine.

B. B. Gaylord is drilling for the Mesaba-Cuyuna Iron Co. in section 26, township 47, range 29. Ernest LeDuc, interested in the company, was on the range Wednesday and in company with B. B. Gaylord examined the property. Drilling is being carried on in the 139th hole which is now 140 feet deep, the ore being struck from 94 feet down.

#### Coughs that Prevent Sleep

These coughs are wearing and if they "hang on," can run one down physically and lower the vital resistance to disease. Mr. Bob Ferguson, 319 Pine St., Green Bay, Wis., writes, "I was greatly troubled with a bad cough that kept me awake nights. Two small bottles of Foley's Honey and Tar Compound completely cured me." H. P. Dunn.—Advt. mwf

#### The Man Who Neglects Himself

When his condition points to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. H. P. Dunn.—Advt. mwf

#### WE HAVE REACHED

THE SUMMIT of excellence in whiskies when we announce our securement of the local output of the product of a famous distillery —. No one in town but we may sell it — none can buy save through us. We bespeak an early trial of its merits if you're not familiar with them, an early asking as to prices if you don't know them. Fine wines, liquors, brandies, etc., always in stock.

#### YOU CANNOT GET AWAY

from the fact that it pays to treat your livestock well. Whether you work it or market it the better it is fed the better the returns. That's why you should give our feed a trial. Commence today. We know that the results will be so fine that you'll see the advantage of using right along.

JOHN COATES LIQUOR CO.  
Imperial Blck

### DEVELOPMENTS OF WEEK ON RANGE

(Continued from page three)

claimed, some of the ore running over 64 per cent in iron and very low in phosphorus. With this amount of work, they are assured of a big mine of merchantable ore.

The Cuyuna Central Iron company was incorporated to take over this option for a lease and fully develop the property, also to acquire and develop other properties on the Cuyuna range.

J. J. McAuliffe, the president of this new company, has been one of the active boosters on the Cuyuna range for the past eight years and has interested Duluth capital in over twenty thousand acres of mineral land in Crow Wing, Aitkin and Cass counties during the last two years.

The early history of the iron mining is of interest. About 18 years ago a company was started in Brainerd. The munificent sum of \$200 was raised for immediate drilling, twenty men putting up \$10 each for stock. A well drill was used on some of the Holland land in Southeast Brainerd. A layer of quicksand was struck and P. G. Fogelstrom, who superintended the drilling operations, drove through a plank tube and passed the perilous quicksand. Then the drill worked down 60 or 70 feet. Some difference of opinion occurred regarding further operations and the work stopped. Mr. Fogelstrom maintained there was iron there. "I tell you gentlemen," said Mr. Fogelstrom to some of the stockholders, "you will be sorry some day that you didn't keep on mining." Land at that time could be purchased for \$1.50 and \$2.50 an acre. Among the stockholders in the company were many men who later realized that there was ore on the range and were wise enough to acquire holdings. The president of the company was Al Ferris, vice president Leon Lum and treasurer George D. LaBar. Among the directors were J. McMurtrie, P. G. Fogelstrom, M. K. Swartz, Dr. Werner Hemstead, Al Ferris and others.

Frank A. Edson, of Deerwood, has sold to the Provident Iron Co. the east half of the northeast quarter and the southwest quarter of the northeast quarter of section 19, township 47, range 28. William Herr has sold to J. C. Barr, John Allen and John W. Westcott the east half of the northeast quarter, the southwest quarter of the northeast quarter and the northeast quarter of the southeast quarter of section 30, township 138, range 25, the consideration being \$1180. N. Luther Packard has sold to the same the northeast quarter of the northeast quarter, the south half of the northeast quarter and the north half of the southeast quarter of section 3, township 138, range 25, the consideration being \$2,000.

#### Guarding Against Croup

The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. I give them Foley's Honey and Tar Compound and in every instance they get prompt relief and are soon cured. We keep it at home and prevent croup." H. P. Dunn.—Advt. mwf

### Farms For Rent

GEORGE EBINGER  
113 N. E. Kindred St., Brainerd, Minn.

#### SURPRISES MANY IN BRAINERD

The QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the remedy which became famous by curing appendicitis, is surprising Brainerd people. Many have found that this simple remedy drains so much foul matter from the system that A SINGLE DOSE relieves constipation, sour stomach and gas on the stomach almost IMMEDIATELY. Adler-i-ka is the most thorough bowel cleanser ever sold. Johnson's Pharmacy.—Advt.

## A STRIPPING MINE

### Undoubtedly The Greatest Opportunity For Investors In CUYUNA IRON & MANGANESE ORE CO.

A limited number of shares of stock in this company are now offered for sale to the general public at par. We have been operating two drills all summer on our eighty acres and have 34 drill holes down, showing up a large body of very good ore and therefore feel confident in offering this stock to the general public at this time as our property is beyond the prospect stage.

We expect to open up a big stripping mine and for the purpose of continuing our operations some stock will be sold. Our property adjoins the big stripping Pennington mine, also the Cuyuna-Mille Lacs and Armour No. 1, all operating mines located near Crosby and Iron-ton. On account of the possibility of large annual shipments from an open pit mine large and quick profits can be anticipated.

We invite the public to participate in this big proposition as it is something unusual for an investor to be able to get stock in such a big thing as an open pit mine.

For future information, illustrative booklet, samples and assays of ore, apply to the office of the company, in person or by letter.

Look at the property. It adjoins the big Pennington stripping mine right near Crosby and Iron-ton.

#### Coughs that Prevent Sleep

These coughs are wearing and if they "hang on," can run one down physically and lower the vital resistance to disease. Mr. Bob Ferguson, 319 Pine St., Green Bay, Wis., writes, "I was greatly troubled with a bad cough that kept me awake nights. Two small bottles of Foley's Honey and Tar Compound completely cured me." H. P. Dunn.—Advt mwf

**The Man Who Neglects Himself**  
When his condition points to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. H. P. Dunn.—Advt mwf

#### WE HAVE REACHED

#### THE SUMMIT

of excellence in whiskies when we announce our securing of the local output of the product of a famous distillery. No one in town but we may sell it—none can buy save through us. We bespeak an early trial of its merits if you're not familiar with them, an early asking as to prices if you don't know them. Fine wines, liquors, brandies, etc., always in stock.

JOHN LARSON

### DEVELOPMENTS OF WEEK ON RANGE

(Continued from page three)

claimed, some of the ore running over 64 per cent in iron and very low in phosphorus. With this amount of work, they are assured of a big mine of merchantable ore.

The Cuyuna Central Iron company was incorporated to take over this option for a lease and fully develop the property, also to acquire and develop other properties on the Cuyuna range. J. J. McAuliffe, the president of this new company, has been one of the active boosters on the Cuyuna range for the past eight years and has interested Duluth capital in over twenty thousand acres of mineral land in Crow Wing, Aitkin and Cass counties during the last two years.

The early history of the iron mining is of interest. About 18 years ago a company was started in Brainerd. The munificent sum of \$200 was raised for immediate drilling, twenty men putting up \$10 each for stock. A well drill was used on some of the Holland land in Southeast Brainerd. A layer of quicksand was struck and P. G. Fogelstrom, who superintended the drilling operations, drove through plank tube and passed the perilous quicksand. Then the drill worked down 60 or 70 feet. Some difference of opinion occurred regarding further operations and the work stopped. Mr. Fogelstrom maintained there was iron there. "I tell you gentlemen," said Mr. Fogelstrom to some of the stockholders, "you will be sorry some day that you didn't keep on mining." Land at that time could be purchased for \$1.50 and \$2.50 an acre. Among the stockholders in the company were many men who later realized that there was ore on the range and were wise enough to acquire holdings. The president of the company was Al Ferris, vice president Leon Lum and treasurer George D. LaBar. Among the directors were J. McMurtre, P. G. Fogelstrom, M. K. Swartz, Dr. Werner Hemstead, Al Ferris and others.

Frank A. Edison, of Deerwood, has sold to the Provident Iron Co. the east half of the northeast quarter and the southwest quarter of the northeast quarter of section 19, township 47, range 28. William Herr has sold to J. C. Barr, John Allen and John W. Westcott the east half of the northeast quarter, the southwest quarter of the northeast quarter and the northeast quarter of the southeast quarter of section 30, township 138, range 25, the consideration being \$1180. N. Luther Packard has sold to the same the northeast quarter of the northeast quarter, the south half of the northeast quarter and the north half of the southeast quarter of section 9, township 138, range 25, the consideration being \$2,000.

#### Guarding Against Croup

The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold.
